Dear Parents and Carers,

I am writing to inform you of the progress and attainment information that we have accumulated over the course of this year and its comparison to other data, such as Local Authority (Hampshire) and National figures. This information can also be found on our website.

All our cohorts of children vary from year to year and they are never a direct comparison. To put it simply; some year groups might have more boys to girls, some year groups are avid readers and others find reading more challenging, some children get more support at home than others and some year groups can be sportier or more creative than others which is why we offer such a varied curriculum with a variety of opportunities. In 2022, we were all still recovering from the Covid pandemic and used the baseline information that we did on return to target the areas of most significant need. For example, in Early Years a lot more time was spent on the children's core strength and communication as a priority.

Every year, schools have to report to the Department of Education and the Local Authority on their performance of statutory tests or milestones within their education journey. This data is used to inform the School Improvement Plan for the following year.

Please see below the data for our school in 2023.
