

Sacred Places

Sacred Spaces

L.O. I can think about places that are special to me and how special places help us in our lives.

Starter: Where do you go to think/be alone and reflect?

My Special Place

In partners interview each other about special places.

Make a note of your friend's answers.

1. What is your special place and why is it special?
2. Why do you go there?
3. What objects/features are there?
4. Does anyone else know about it?
5. How would you expect someone to treat it?
6. How would you feel if someone mistreated your favourite place?
7. Why do think people have different special places?

Your task

1. Draw your special place and label objects in the special place.
 2. Give a reason as to why the objects contribute to making it special
 3. Write a paragraph describing why the place is special to them, giving examples of items of significance and say what types of things they might reflect about in that place.
 4. If you don't have a space then design one – what would you have in it to make it a place that would help you think?
- **Extension: Write an acrostic poem about your special place**

Plenary

- Think about people of different religions and what their sacred spaces are like. What do they have to help them worship/reflect about God?

Special Places

Task: Unscramble the following special places;

hrcuhc

Church

geasoynug

Synagogue

rwaguadr

Gurdwara

qseumo

Mosque

mtelep

Temple

nardmi

Mandir
