Hit the Button

▶ Play Game

Hit the Button is an interactive maths game with quick fire questions on number bonds, times tables, doubling and halving, multiples, division facts and square numbers. The games, which are against the clock, challenge and develop mental maths skills. An untimed, practise mode is available in our [Hit the Button app](#) along with lots more extra features.

The activities can be matched to appropriate mathematical ability. Regular use of Hit the Button can help students to sharpen their recall of vital number facts in a fun way and learning multiplication tables need not be boring.

Hit the Button is available as an app on iOS, Android, Windows and Mac!

### Fraction Matcher

An excellent fractions matching game at different levels of difficulty making it very versatile in use. There is an option to play the games against the clock and also with mixed whole numbers and fractions. Highly recommended.

### Fractions: Equality

An interactive resource where you can make equivalent fractions using different numbers and try the game to match fractions in different picture patterns to test your knowledge. A useful teaching tool on an interactive whiteboard.

*Some examples!*

To practise your times tables torture squares, you can play this game online and it'll mark your answers.
