

Development of our Outdoor Learning Environment (Pond and Allotment areas)

23rd November 2018 Update....

k14028451 www.fotosearch.com

The before and after photos we took this morning in the garden.

We finished clearing the second log seating area and placed the logs, kindly donated by Harrison's mum Alex (from Year 5), in a circle for the children to use.

In the allotment area we cleared the ground alongside the greenhouse, then trimmed back the twigs and weeded (as best we could!) along the fences each side of the raised beds.

We raked up a lot of leaves so we can get a clearer idea of what else needs to be done next.

Clare Lewis & Vicky Dixon

It was great to see wildlife enjoying the area; we saw Robins and frogs today.

What's next?

Our next gardening session is planned for Saturday 1st December, approx 9am-12noon, when Roger, the gardener, will be able to join us.

We hope you will join us too...

The more the merrier!

A few of the raised beds are in need of repair.

Our scarecrow could do with a buddy!
