

LO: I can choose and use suitable units of measurement.

Have a look at the pictures at the bottom of the page. Decide if you need to use a ruler to measure it in centimetres (cm), a measuring jug to measure in millilitres (ml) or grams (g). Write each one in the correct column. Some might be in more than one column.

cm 	ml 	g 

oil

distance of throw

water

gravy

key

lemonade

shoes

tea

flower
