

# Properties of 2d and 3d shapes

square based pyramid

oval

pentagon

cube

ruler

faces

cylinder

polygon

vertices

octagon

quadrilateral

cuboid

straight

rectangle

sphere

triangular based pyramid

corner

solid

hemisphere

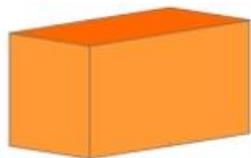

repeating pattern

hexagon

surface

line of symmetry

edges

curved

square

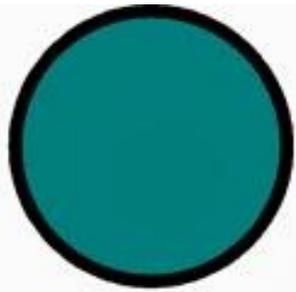

triangular prism

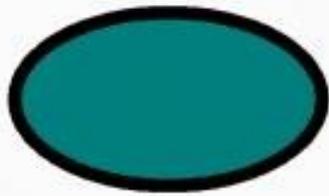

symmetry

complex pattern

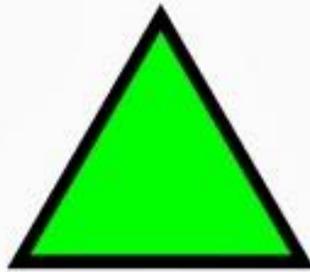

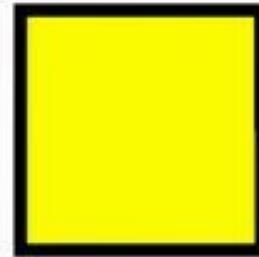

circle

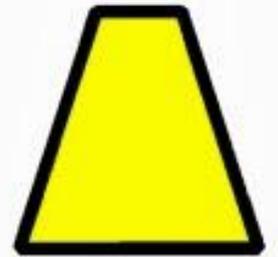

oval

triangle

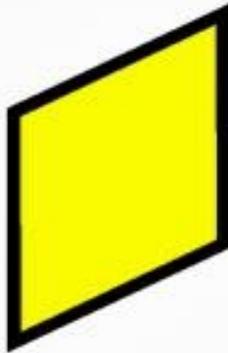

square

trapezium

diamond

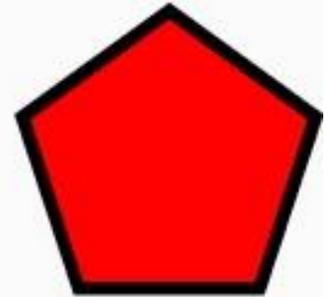

rhombus

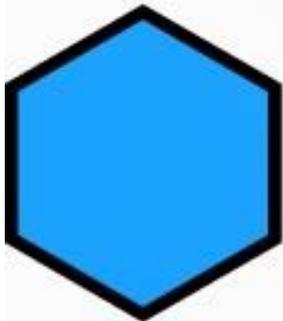

parallelogram

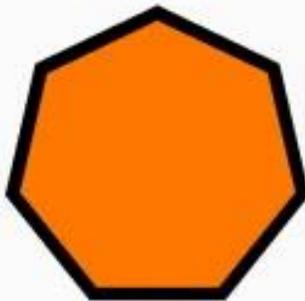

rectangle

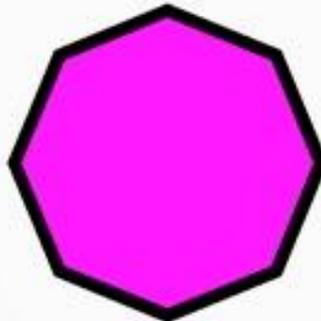

pentagon

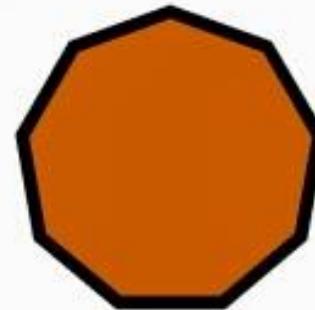

hexagon

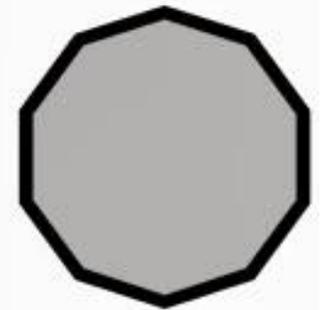

heptagon

octagon

nonagon

decagon
